Dear Yoyo, Yang terhormat.

Because you suggest few months ago for the first IAPAO meeting to be in Indonesia, we thought it would be nice to do the NEXT meeting there. Consequently, we wanted to ask you if you think if it could be interesting to come your city next year for the IAPAO meeting.

Indonesia will be accessible to people from Asia and Australia for whom it was impossible to come to the 2003 meeting because of the distance. In fact I did suggest that IAPAO meeting would be taking place on a different continent of the world each year, first to help different people to come, and also to make it a real international organisation, not a occidentalocentrist organisation.

If you agree about the idea to help to prepare the next meeting in Indonesia, we will pay for all our own expanses of course (hotel and transportation), you do not have to worry about that. In my opinion, that will help to expand the network and will confirm that IAPAO is a real international organisation. We only need a place - a room - to meet together for two or three days and a booking for a good but cheap losmen (indonesian little hotel).

I would like to talk to you by phone about that. If you are interested, can you please give me your phone number and I will cal you within the next month to discuss about that idea. (I will be happy to talk to you anyway, whatever about IAPAO! Tidak apa apa.)

Mungkin, kami bisa bicara ke IAPAO2003 organisasi di Bandung! But if you think it would be too difficult, we have other solutions... And I will
